BOOK SYNOPSIS

This unique case-based review of thoracic surgery offers excellent preparation for oral board examinations, which emphasize both general knowledge and case management. Written by recognized experts, the book presents a variety of cases covering the full spectrum of thoracic surgical diseases. Each case begins with the clinical presentation and proceeds to X-ray report, differential diagnosis, CT scan report, diagnosis and recommendation, surgical approach, outcome, and discussion. X-rays, CT scans, bronchoscopic photographs, and other relevant illustrations accompany the text. Some cases include postoperative complications and discussion of the causes, evaluation, and management of these complications.
